Amendments to the Specification:

Please amend the third paragraph (lines 10-13) on page 25 as follows:

--Each of the N ~~first~~ data latches 350-1 to 350-N belongs to one of the first to N-th groups. Each of the N second data latches 350-1 to 350-N holds the gray-scale data on the gray-scale bus 310 based on the shift outputs from the N second shift registers 370-1 to 370-N.--
